

Logan CBC Sightings - Group Worksheet

This checklist includes species seen on most Logan CBCs in mid-December. Each species is prefaced with a code: 1 = bird easily seen in the appropriate area; 2 = bird that should be present but may require effort to find; 3 = bird expected but hard to find; 4 = rare but not unexpected. All code 4 species and any species seen but not on the checklist may require written documentation and significant bribes for the compilers.
