HC = Flagged as an unusually high count  
LC = Flagged as an unusually low count

## Species Requiring Rare Bird Reports to be Submitted to Regional Editor

Species

### Special Aspects

We saw an increase in our total number of species this count year, which I think was due to the excellent weather conditions we had on the count day. We also saw an increase in the number of participants, particularly those participating by feeder, which I think was due to the pandemic. Being in the pandemic conditions for so long, people were looking for new ways to get outside and get involved from their own homes. A great count year for the birds, amidst a not so great year for the humans. It was great to hear how everyone was able to modify this year's count to accommodate social distancing, but not lose the joy of being outside and birding.
