

# AVOCET

## Build Instructions

**COLOR** the puppet before you cut it out

**CUT** the puppet and the tail feather piece out

**GLUE** on the Avocet eyes

**FOLD** the tail feather piece and glue it up under the end of the tail

**PUNCH** a hole for each leg (marked on the template)

**SHAPE** the white pipe cleaners into AVOCET legs, insert and tape on the underside

**GLUE** the two body pieces together – leave the mid-body area open

**HOT GLUE** the puppet stick in place – lower mid-body

**Wow! That is one great looking AVOCET!**

**NOW ~ ~ ~ ~**

**PARADE** your AMERICAN AVOCET puppet with your Lake loving community in praise, honor, and witness of Great Salt Lake and all life-giving water bodies!
