

# BRINE FLY

## Build Instructions

**COLOR** the puppet before you cut it out

**CUT** the puppet out (remove the paper legs if you decide to add pipe cleaners for legs)

**CUT** three 12” black pipe cleaners in half for 6 fly legs

**PUNCH** small holes for the 6 legs (marked on template)

**BEND** the fly legs into ‘fly leg’ shapes. Insert and tape to secure on the underside

**MAKE** a ‘finger ring’ by rolling a strip of paper 1” x 4” into a ring – tape to secure.

**TAPE** the finger ring onto the underside – so you can wear your Brine fly puppet

**Wow! That is one great looking Brine Fly!**

**NOW ~ ~ ~ ~**

Your Brine Fly finger puppet is ready for you to **PARADE** with your Lake loving community in praise, honor, and witness of Great Salt Lake and all life-giving water bodies!
